

## **NELHA Tour**

Saturday February 8th at 1:00pm.

The meeting point is Friends of NELHA, 73-4485 Kahilihili Street Kailua--Kona, HI 96740. Parking is available onsite or the meeting point is a short taxi ride from the airport.

Come over to the Big Island to see and learn about the aquaculture facilities at the Natural Energy Laboratory of Hawaii (NELHA)! The Friends of NELHA will guide you around part of the 870 acre Hawaii Ocean Science and Technology (HOST) Park which is home to more than 50 emerging renewable and ocean-based technology companies. The tour will begin at 1pm and include stops at Kampachi Farms, the Ocean Thermal Energy Conversion (OTEC) Plant, and Big Island Abalone (with a tasting!). The tour will last about three hours and cost \$70. It includes the transportation around NELHA but does not include the flight to the Big Island or transportation to NELHA from the airport. For more information and purchase tickets: <http://friendsofnelha.org/aquaculture-america-2020-at-nelha/>

Location: Friends of NELHA is located in the Gateway Visitor Center at Hawaii Ocean Science and Technology (HOST) Park administered by the Natural Energy Laboratory Hawaii Authority (NELHA), which is just one mile south of the Kona International Airport and Kaiminani Drive, approximately six miles north of Kailua-Kona. The building is unmistakable due to the large solar panels and unique construction. For more information, see <http://friendsofnelha.org/about/directions/>
