AQUA 2018 – EAS and WAS CREATING A FANTASTIC MEETING

Montpellier France
August 25-29 2018

We are the producers, the investors, the suppliers, the processors, the vendors, the scientists, the educators, the students and the consumers of farmed aquatic products.
Montpellier: A Fantastic Location to Bring the Aquaculture World Together

Neighboring the Provence area in southern France, Montpellier is the ideal place to stay and take advantage of the seashore and the many hidden treasures of the Languedoc-Roussillon region. Discover 6 major UNESCO World Heritage sites, scenic villages and landscapes and vast natural areas such as the Camargue marshland, and the Cévennes and Pyrénées mountains.

Nestled between sea, vineyards and mountains, Montpellier is the very definition of the Mediterranean city. With its rich historical heritage and idyllic location just a few kilometers from the sea, Montpellier is a key international city for business tourism and is rich with 1,000 years of history. People who cherish old stones and a historical ambiance love strolling through downtown Montpellier’s medieval streets, surrounded by historical monuments and antique shops, designer boutiques, and major luxury brand names set up in thousand-year old dwellings with vaulted ceilings... sure to give that far-from-home feeling!

AQUA 2018 will celebrate the fact that aquaculture is one of the most important food production industries in the world. Aquaculture is the most efficient producer of high quality food and contributes to global health and wealth. Aquaculture respects the environment, creates employment and offers significant investment opportunities. AQUA 2018 will take place from August 25-29 in the beautiful French city of Montpellier and will comprise a scientific conference, trade exhibition, industry forums, workshops, student events and receptions. The event will highlight the latest aquaculture research and innovation to underpin continued growth of this exciting food production sector. The AQUA events are co-organised by the European Aquaculture Society (EAS) and the World Aquaculture Society (WAS) and are held every six years. Past events were held in Nice (2000), Florence (2006) and Prague (2012).

It is a global aquaculture event and participation is expected from more than sixty countries.

AQUA 2018 Will Have the Largest Aquaculture Tradeshow

AQUA 2018 will draw on Europe and Africa, Canada, USA and Latin America as well as the Middle East and Asia Pacific region and the rest of the world to create one of the largest aquaculture trade shows in the world. The trade show definitely will have one of the widest variety of products of any trade show ever! This is your opportunity to inspect the latest in products and services for the aquaculture industry.
AQUA 2018 KEYNOTE SPEAKERS

Both of our AQUA2018 Keynote Presentations will be given during the Plenary Session on Sunday, August 26th in the BERLIOZ Auditorium of Le Corum. The Plenary Session will be followed by the AQUA2018 Student Spotlight Awards.

“Charoen Pokphand Foods – Changing the Face of Asian Aquaculture”

Robins McIntosh
Executive Vice President of Charoen Pokphand Foods PLC

CPF company experience over the past 2 decades in developing shrimp and Tilapia aquaculture first in Thailand and later all over Asian countries, focusing on reasons for successes and failures, how to deal with technical issues (diseases, certification issues) as well as socio-economics, public perception, trade issues, etc.

Robins McIntosh is an executive vice president of the Charoen Pokphand Foods Public Company Limited (CPF), the largest integrated producer of aquaculture shrimp in the world. His responsibilities include management of the shrimp broodstock development and genetics programs. Mr. McIntosh joined CPF in 2001 and was tasked with the job of reviving the companies shrimp aquaculture division. As part of this process he over sighted the introduction of P. vannianum into Thailand, the development of SPF P. monodon, and the modernization of hatcheries, and farms. His work at CPF increased shrimp production at the company from 5,000 tons to over 90,000 tons annually in 2010. These changes that were introduced into CPF eventually made their way into most of Asian shrimp culture turning a stagnant industry into one of the most dynamic growth stories ever in aquaculture. Prior to his work at CPF Mr. McIntosh developed and was general manager of Belize Aquaculture Ltd: a farm credited with revolutionizing the way in which shrimp can be grown with minimal water exchange and high efficiency. He graduated from a BA from Vanderbilt University, and a MA from the University of South Florida.

“Technological Innovation in Salmon Farming”

Øyvind Oaland, Global Director R&D and Technical, Marine Harvest ASA

An insight into the current challenges that Marine Harvest is addressing and how technological innovations and new production platforms will facilitate sustainable growth.

Øyvind Oaland has served as head of the Global Research and Development department in Marine Harvest since 2008 and is member of the senior management team in Marine Harvest Group. He has long experience from research and technical area within salmon farming and processing and has been with Marine Harvest since 2000.

Prior to taking the position as Global Director Research & Development in 2008, he held various positions within the group in the areas of fish health, food safety and product quality.

Øyvind has a degree in Veterinary Medicine from the Norwegian School of Veterinary Science.

Sessons By Day

Sunday, August 26

EU Atlantic Session ................................................................. 09:30 - 17:10
Africa Aquaculture ................................................................... 09:30 - 17:40
Sturgeon Workshop .............................................................. 09:45 - 12:40
Aquaculture Value Chain ...................................................... 11:20 - 12:40
Non-Hood Aquaculture ......................................................... 12:00 - 12:40
Communication to Society ................................................... 12:00 - 15:10
Biodegradation, Conservation, Alien Species ................. 12:00 - 15:10
FISHBOOST: Fish Breeding and Genetics ....................... 11:20 - 17:10
Microbial Raw Materials and Marine Algae in Aquafeed .... 11:20 - 17:10
Molluscs - continued ............................................................. 11:20 - 17:10
Functional Ingredients ......................................................... 11:20 - 17:10
Genome Regulation and Manipulation ......................... 11:20 - 17:10
Microbial Community Management .............................. 14:30 - 17:10
Value Chain Economics ....................................................... 14:30 - 17:10
Food Safety ........................................................................... 14:30 - 17:10
Vaccines & Therapeutants ................................................ 14:30 - 17:10
Tilapia .................................................................................. 14:30 - 17:10
Live Feeds ........................................................................... 14:30 - 17:10
Immunology and Pathology .............................................. 15:30 - 17:10

Monday, August 27

Functional Ingredients - continued .................................... 09:00 - 10:40
Aquaculture and Prospective .......................................... 09:00 - 12:50
Sea Cucumber, Sea Urchins, Polychaete ................. 09:00 - 12:50
Selection & Breeding Programmes .............................. 09:00 - 12:50
Micro & Macro Algae Culture ........................................ 09:00 - 17:10
EU EATiP: “Feed Globally – Produce Locally” .......... 09:00 - 17:10
Socio-economics ................................................................. 09:00 - 17:10
Welfare ............................................................................... 09:00 - 17:10
Bio-floc Systems ................................................................. 09:00 - 17:10
Integrated Multi-Trophic Aquaculture ....................... 09:00 - 17:10
Agriculture/Aquaculture Circular Co-Production and Ecol-Intensiﬁcation ........................................ 09:00 - 17:10
Molluscs - continued ............................................................. 09:00 - 17:10
Immunology and Pathology - continued ..................... 09:00 - 17:10
Feed Additives ................................................................. 09:00 - 17:10
Off the Shelf Solutions for Fin- and Shell-fish Breeder... 14:30 - 17:10
Escapes: Causes, Consequences & Prevention ............ 14:30 - 17:10
Genomic Selection ............................................................... 14:30 - 17:10

Tuesday, August 28

Nutrition: Novel Feed Ingredients .................................... 09:00 - 10:40
FISHBOOST: Boosting European Aquaculture by Advancing Selective Breeding to the Next Levels .... 09:00 - 12:30
AMR in Aquaculture ........................................................... 09:00 - 12:30
European Association of Fish Pathologists (EAFP) Meeting 09:00 - 12:30
Development, Welfare and Poverty Aleviation ........ 09:00 - 12:30
Hatchery Technologies, Broodstock management and Larvae & Juvenile Management .......................... 09:00 - 17:10
Shellfish Forum ................................................................. 09:00 - 17:20
Integration into Sustainability Models (IAEM) ............ 09:00 - 17:20
Emerging Diseases & Diagnostics ................................. 09:00 - 17:20
Marine Spatial Planning (incl. Siting, Area Management, Zoning and GIS) ......................................... 09:00 - 17:20
Percid Fish ........................................................................ 09:00 - 17:20
Integrated Multi-Trophic Aquaculture - continued .... 09:00 - 17:20
Protein and Lipid Sources ................................................. 11:10 - 17:20
Biosecurity and Antimicrobial Resistance (FAO) .... 14:00 - 17:20
Foreign Production of Penaid Shrimp in Europe - Risks and Opportunities ............................................ 14:00 - 17:20
Expanding Aquaculture within the Planetary Boundaries 14:00 - 17:20
General Contributed .......................................................... 14:00 - 17:20

Wednesday, August 29

Tuna .................................................................................... 09:00 - 10:40
Outermost Regions and Islands .................................. 09:00 - 10:40
Cage Culture ................................................................. 09:00 - 10:40
Adaptation to Climate Change and Ocean Acidification 09:00 - 12:30
Social Acceptability (SA) for Mediterranean Aquaculture Development ........................................ 09:00 - 12:30
Antimicrobials in Aquafeeds, Prebiotics and Probiotics 09:00 - 12:30
Aquaculture in IRAN .......................................................... 09:00 - 12:30
Measuring Sustainability in a Changing World .......... 09:00 - 12:30
Sex Determinism and Control ....................................... 09:00 - 15:40
VIVALDI: Preventing and Mitigating Farmed Bivalve Diseases ......................................................... 09:00 - 17:20
RAS ................................................................................ 09:00 - 17:20
Restoration Projects Using Aquaculture Organisms .... 11:10 - 12:30
National Aquaculture Policies & Regulations ............ 11:10 - 12:30
Assessment and Mitigation of Environmental Impact .......................... 11:10 - 17:20

**TRADE SHOW PASS**

Good for 3 days admission to exhibits only – August 26, 27, 28

(Trade show pass is included with the Full Conference Registration)

(US$ 30/€ 25 TOTAL TRADE SHOW PASS US$/€ ________)

**INDUSTRY TOURS**

– Tour #1 SOLD OUT
Tour #2 Oyster Farms at the Etang de Thau - August 30

(US$ 100/€ 90 TOTAL INDUSTRY TOURS US$/€ ________)

**MEMBERSHIP DUES**

– Enter amount from Membership Application on other side if applicable.

(TOTAL MEMBERSHIP DUES US$/€ ________)

Do not mail registration after August 1, 2018 or fax after August 5. After August 5, bring this form with you to register at the show.

TOTAL AMOUNT US$/€ ________

Registration Confirmation and Receipt will be emailed after processing.

CANCELLATION POLICY: Cancellation of registration must be received - in writing - no later than July 15, 2018. Refunds for registration fees will be subject to a 20% handling fee. Refunds are processed after the conference. No refund will be made for cancellations received after July 15, 2018 for “no shows”. After July 15, 2018, no refunds will be made for professional or personal emergencies, flight cancellations, denied visa, weather related cancellation or other travel emergencies. Fees for memberships are non-refundable.

**PAYMENT METHOD:** All fees must be paid to the order of AQUA 2018.

Total Amount for EAS Membership: €_____________

Please enter this amount under “Membership dues” in the table above.

*Reduced membership fees are available for:
Retired persons (certification of retired status required).
Individuals residing in European and non-European Mediterranean countries with Gross National income (GNI) lower than US$ 15,000 per capita. These countries are: Albania, Algeria, Azerbaijan, Belarus, Bosnia and Herzegovina, Bulgaria, Croatia, Egypt, Hungary, Iran, Iraq, Kazakhstan, Latvia, Lithuania, Macedonia-FYR, Montenegro, Morocco, Poland, Romania, Russian Federation, Serbia, Tunisia, Turkey, Turkmenistan, Ukraine
- Institutes if based in one of the above mentioned countries.
- Students (copy of current student card required).
**Life membership offers the general EAS benefits for full lifetime duration.

For details on the different types of memberships and options, please contact the WAS home office at

Tel: +1-225-347-5408 Fax: +1-225-347-5408 Email: judya@was.org

CHAPTER OPTIONS:
One chapter incuded in membership. Mark the chapter you choose.

- Asian Pacific
- Korea
- Latin American/Carribean
- United States (USAS)
- None (deduct USD 5)

You can add extra Chapters for USD 5

Total Amount for WAS Membership: USD_____________

Please enter this amount under “Membership dues” section on opposite side of this form.

For membership in other associations, please contact them directly.

If you need a phone number, contact the Conference Manager (+1-760-751-5005).
**SPECIAL HOTEL RATES**
Special hotel rates have been arranged for your visit to France. To process your hotel room registration on the official accommodation booking site, click on the below link.

**INDUSTRY FORUMS**
Special industry oriented sessions will be organized on the Monday and Tuesday to address industry challenges and discuss ways to overcome these. More information will be provided on the AQUA 2018 website.

**AQUA 2018 FARM TOURS**
Tour #1 is sold out
Tour #2 Visit of the Oysters farms at the Etang de Thau – August 30
Located at the Land-Sea interface, 40 km far from Montpellier, the Thau lagoon is the biggest and the deepest lagoon of French Mediterranean (7500 ha, 4.5 m depth on average). Under strong marine influence, Thau lagoon is a coastal ecosystem naturally productive due to inputs from the watershed. Taking advantage of these ecological characteristics, humans have developed many uses such as shellfish farming, artisanal fisheries and tourism (sailing, thermal cures). Some other important marine activities are represented in this area, as marine fish farming, land based microalgae productions and also engineering consulting firms.

Representing 90% of the Languedoc Roussillon production, shellfish farming is an important economic activity for the Thau lagoon, with both oyster and mussel production. The Thau lagoon provides 10% of the French pacific oyster Crassostrea gigas production. In Mediterranean area, the ongrowing of Pacific oyster uses very specific practices, using tables with shells fixed ropes immersed in water; the combination of the richness of the environment and these practices allows higher growth rates than those classically observed. During the visit tour of Thau lagoon, you will discover these unique practices in the world, an ecosystem managing environment preservation and economic activity with farmers respectful of their environment. You will have the pleasure of tasting local quality products, directly from the producer.

Boat trip on the Etang will be part of this tour.
Departure Corum – August 30 at 09:00h
Back at the Corum at 15:00h
Degustation at one of the oyster farms
Max numbers 100 pp
Price: 100 USD
Please register online on www.was.org

**YOUR FULL CONFERENCE REGISTRATION INCLUDES:**
- Admission to all sessions, seminars and the trade show.
- Admission to the Receptions.
- Conference bag and Show Directory (except for spouse).
- Refreshment Breaks and Cash Bar Happy Hour.
- Students receive the full registration package plus the Student Reception.
  To qualify for the student rate, a copy of your student I.D. is required.
- Only pre-registered attendees are guaranteed materials.
