Keynote Speaker:

Dr. James Rakocy, from the USA. Known as the “Father of Aquaponics”.

This workshop will emphasize the well-known Aquaponics system developed by Dr. Rakocy over 30 years. The user-friendly UVI system has proven to be reliable and robust and produces extraordinary amounts of fish and vegetables on small parcels of land.

Guest Speakers: Henk Stander, Leslie Ter Morshuizen, Colin Bremner.

What you can expect to learn during this live workshop event:

- Developing Aquaponics
- Principles of Aquaponics
- Hydroponic Component Options
- The UVI Aquaponics System
- Fish Species Selection
- Water Quality Management
- Managing Fish Productions
- Plants for Aquaponics
- Designing Media Systems
- Designing Raft Systems
- Economic Consideration
- Commercial Facilities
- Local Farmer Case Studies and a lot more...
