Proactive MSc in sustainable Aquaculture student seeking challenging fish farm technician role within a world class organization.

## Educations and Qualifications:

**2017- Present**

**University of Stirling, MSc. In Sustainable Aquaculture**

- Modules covered broodstock management, aquaculture planning, environmental management, feed formulation, health control, epidemiology and exotoxicology.
- Dissertation research was on post treatment effect of Prophylactic health products during grow out phase instead of antibiotics if it is used during extended nursery phase in shrimp industry and health management capacity of shrimp hatcheries in India. Research has included to design study, field trial with shrimps, interviews and statistical analysis.

**2013-2017**

**West Bengal University of Animal and Fishery Sciences**

- 4 years bachelor's degree program in Fisheries Sciences included Aquaculture, Fisheries Resource management, aquatic animal health management, fish processing technology, fishery extension and fish processing technology.
- Project in final year was on the culture of Indian Major Carps, feed management, monitoring fish health, fulfillment of SOP and equipment maintenance were the key topics of the project.
- Another highlight has been in this project work I scored more than 80% for the high-quality management of fish and pond during the culture period.
- During this course I have gained training to culture fish both in inland and sea from the premier fishery institutions such as Central Institute of Fisheries Education, Freshwater Fisheries Research and Training Centre in India.

## Experience

**August 2016**

**Fish culture experience**

West Bengal University of Animal and Fishery Sciences

- Proactively cultured several ornamental fish species, *Tilapia sp.* besides main course of study out of own interest under the supervision of Professors of Aquaculture department.
- Visited many hatcheries and farms during the during the degree program to get hand on experience.

**April-July 2018**

**Shrimp (Shellfish) culture experience**

University of Stirling

- As a part of MSc project, I have cultured white leg shrimps for one cycle.

**Additional skills and Interests:**

- **IT skills:** use Microsoft Office packages to complete University assignment, familiar with social media and have been using SPSS and R in assignments including dissertation.
- **Cooking:** enjoy cooking of different Asian dishes as a hobby.
- **2015 manager of the West Bengal University of Animal and Fishery Sciences cricket team:**
- Efficiently organized cricket matches once in two weeks. I was responsible for travel and accommodation for 15 people.
- Could raise a small fund for the welfare of local orphan children from cricket matches.
